

AMENDMENTS

In the Specification:

Please replace the title "PROSTATIC CANCER VACCINE" with the following title:
--METHODS OF ELICITING AN ANTITUMOR IMMUNE RESPONSE TO PROSTATE
TUMORS--

On page 1, under the title, please delete the paragraph on lines 2-5 and substitute the following

B₁
--This application is a continuation of U.S. Serial No. 08/288,057 filed 10 August 1994, now U.S. Patent No. 5,925,362, which is a continuation-in-part of U.S. Serial No. 08/105,444 filed 11 August 1993 and now pending. The contents of these applications are incorporated herein by reference.--

On page 23, please delete the Abstract and replace it with the following:

B₂
--Disclosed herein are methods for eliciting an antitumor immune response and a potential or actual prostate tumor-bearing subject which methods comprise administering to the subject a composition comprising an active ingredient selected from the group consisting of at least one antigen over-represented in the prostate gland or an immunologically effective portion thereof; an expression system capable of generating *in situ* said antigen; and an antiidiotypic antibody or fragment thereof which mimics said antigen.--

In the Claims:

Please replace present claim 13 with the following clean amended claim 13. A marked version of the amended claim 13 is attached herewith as Exhibit A.

B₃
13. (Amended) A method to elicit an antitumor immune response to prostate tumors in a subject, which method comprises ~~50 B C I~~
administering to said subject at least one active ingredient formulated for administration to said subject,
